

PLACEMENT

It is difficult to advance any firm assurance on career enhancement as this would be individualistic. The institute does not guarantee any placement to the graduating students. However, a significant value addition to the career of graduating students is expected.

ACCREDITATION

Kindly note that RIAM has not sought any approval or accreditation from any of the Academic Institution, UGC, or Distance Education Council. We believe that higher education has two essential purposes, a) better career growth and b) self development. Considering our background and the profile of associated individuals with this venture, we appreciate the responsibility upon us to offer quality education. Participants to this programme take admission at their own risk on the assessed utility of this programme to their career and the management does not hold any legal responsibility.
